SCAN ADVANTAGE

The Scan Advantage mattress with a high density modular foam construction offers an effective solution for those looking for high risk pressure distribution. Compatible with domestic and community beds both manual and electric profiling.

Ideal for everyday community use the mattress is available in 150mm depth with a blue wipe down, 2 way stretch breathable cover.

Product code

SCEFP

Risk category	High Risk*
Waterlow*	Approx 20
Weight limit	Up to 39 stone (dependent upon patient height and weight distribution)
Dimensions	2000x850x150mm (Other sizes available on request)
Foam Density	40 -42 Kg/M3
Nominal Hardness	115 – 150 N
Fatigue class	S
Cover	PU coated polyester with anti bacterial agent
Fire Retardancy	BS 7155Crib source 5
Cleaning	Covers wipe, clean, machine wash up to 72 degrees
Warranty	2 years

Features

- Suitable for high risk patients*
- Modular construction insert
- Firm side walls
- No need to turn
- Two way stretch wipe down covers
- Toughened non slip base
- Full length zip flap
- Recyclable removable covers

Benefits

- Provides high level of pressure distribution for patients
- Helps maximise body contact and distribution
- Enables easier patient transfer by providing side rail support
- Reduces the risk of manual handling problems
- Helps to reduce shear and friction
- Safety , helps prevent mattress slippage, Helps improve mattress longevity
- Reduces possibility of fluid ingress
- Value for money

SCAN ECONOMY

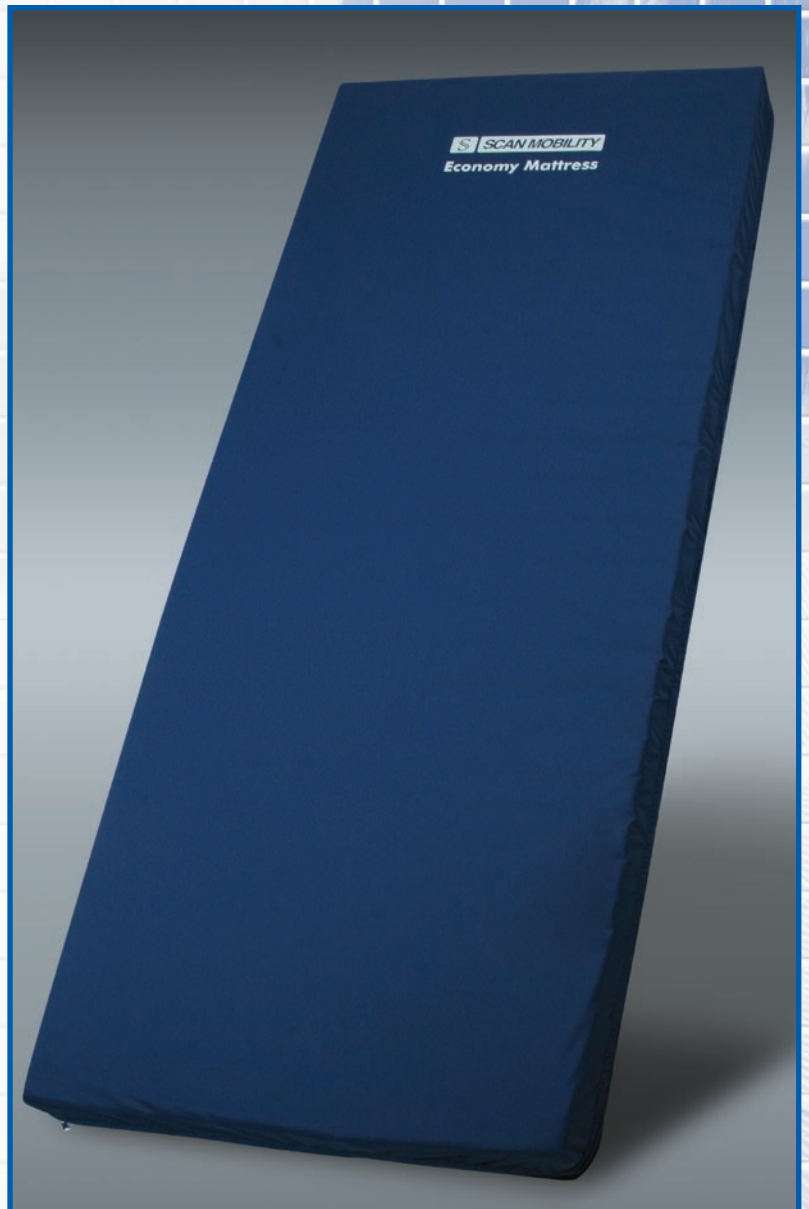

The Scan Economy mattress is a cost effective solution for those who are requiring comfort /low risk pressure distribution.

For use with all standard manual and electric profiling beds. Available in 100mm (4") depth with a blue wipe down, 2 way stretch breathable cover.

Product code

SCPFS

Risk category	Comfort/Low Risk*
Waterlow*	Approx 10
Weight limit	Up to 22 stone (dependent upon patient height and weight distribution)
Dimensions	2000x850x100mm
Foam Density	22 - 29 Kg/M3
Nominal Hardness	115 – 150 N
Fatigue class	S
Cover	PU coated polyester with anti bacterial agent
Fire Retardancy	BS 7155Crib source 5
Cleaning	Covers wipe, clean, machine wash up to 72 degrees
Warranty	1 year

Features

- Suitable for medium risk patients*
- Temperature sensitive foam interface
- No need to turn
- Two way stretch wipe down cover
- Vapour permeable
- Full length zip flap

Benefits

- Provides medium level of pressure distribution for patients
- Helps maximise patient contact and pressure distribution
- Reduces the risk of manual handling problems
- Helps to reduce shear and friction
- Increases thermal stability
- Reduces possibility of fluid ingress

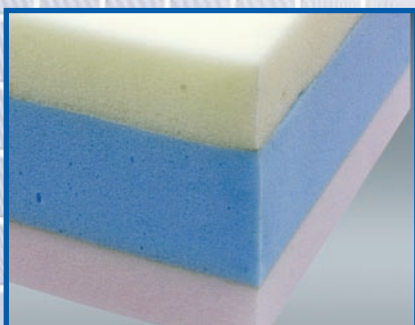

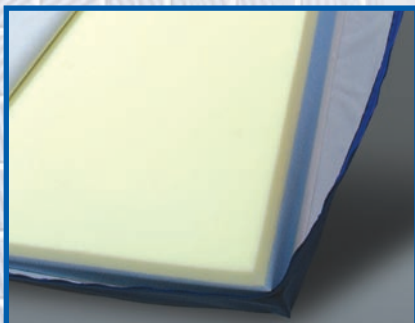

SCAN VISCO

The Scan Visco mattress is manufactured from both high density and visco elastic foam. This helps to reduce interface pressures by moulding to the body shape therefore maximising weight distribution across the surface area. It is an ideal solution of those requiring medium risk pressure distribution. For use with all standard manual and electric profiling beds. Available in either 100 or 150mm (4 & 6") depth with a blue 2 way stretch breathable cover. Other sizes available on request

Product code	SC3L
Risk category	Medium Risk*
Waterlow*	Approx 15
Weight limit	Up to 25 stone (dependent upon patient height and weight distribution)
Dimensions	2000x850x100mm (Other sizes available on request)
Foam Density	38 – 42 Kg/M3 & 48 – 52Kg/M3
Nominal Hardness	40 – 60 N & 40 -70 N
Fatigue class	Severe
Cover	PU coated polyester with anti bacterial agent
Fire Retardancy	BS 7155Crib source 5
Cleaning	Covers wipe, clean, machine wash up to 72 degrees
Warranty	2 years

Features

- Suitable for medium risk patients*
- Temperature sensitive foam interface
- Two mattresses in one
- No need to turn
- Two way stretch wipe down cover
- Vapour permeable
- Full length zip flap

Benefits

- Provides medium level of pressure distribution for patients
- Helps maximise patient contact and pressure distribution
- Firm support one side/ softer on the other
- Reduces the risk of manual handling problems
- Helps to reduce shear and friction
- Increases thermal stability
- Reduces possibility of fluid ingress

SCAN VISCO PLUS

The Scan Visco Plus mattress gives all the benefits of the Scan Visco mattress but is manufactured from 100% visco elastic foam.

It is an ideal solution for those requiring medium risk pressure distribution but may need added comfort.

Available in 150mm (6") depth with a blue 2 way stretch breathable cover.

Product code

SCRMS

Risk category	Comfort/Low Risk*
Waterlow*	Approx 15
Weight limit	Up to 25 stone (dependent upon patient height and weight distribution)
Dimensions	2000x850x150mm
Foam Density	22 - 29 Kg/M3
Nominal Hardness	115 – 150 N
Fatigue class	S
Cover	PU coated polyester with anti bacterial agent
Fire Retardancy	BS 7155Crib source 5
Cleaning	Covers wipe, clean, machine wash up to 72 degrees
Warranty	2 year

Features

Suitable for medium risk patients*

Temperature sensitive foam interface

No need to turn

Two way stretch wipe down cover

Vapour permeable

Full length zip flap

Benefits

Provides medium level of pressure distribution for patients

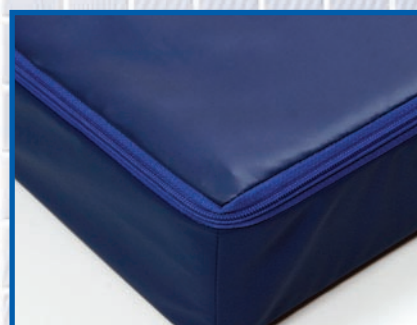

Helps maximise patient contact and pressure distribution

Reduces the risk of manual handling problems

Helps to reduce shear and friction

Increases thermal stability

Reduces possibility of fluid ingress

SCAN ECONOMY

CUSHION

The Scan Economy cushion is a cost effective solution for those who are requiring comfort/low risk pressure distribution.

Available in either 3" or 4" with a blue wipe 2 way stretch breathable cover with a toughened non slip base.

SCAN VISCO

CUSHION

The Scan visco is the ideal solution for those looking for medium risk pressure distribution.

Available in either 3" or 4" with a blue wipe down 2 way stretch breathable cover.

SCAN VISCO PLUS

CUSHION

The Scan Visco Plus cushion offers all the benefits of the Scan Visco but is manufactured from 100% visco elastic foam.

It is an effective solution for those requiring medium risk pressure distribution but also may need added comfort. Available in 4" depth with a blue wipe down, 2 way stretch breathable cover with a toughened non slip base.

Product code**SCPFC**

Risk category	Comfort/Low Risk*
Waterlow*	Approx 10
Weight limit	Up to 22 stone
Dimensions	40x40 -46x46cm (16x16-18x18")
Foam Density	40 -42 Kg/M3
Nominal Hardness	115 – 150 N
Fatigue class	S
Cover	PU coated polyester with anti bacterial agent
Fire Retardancy	BS 7155Crib source 5
Cleaning	Covers wipe, clean, machine wash up to 72 degrees
Warranty	2 year

Features

Suitable for low risk/at risk patients*

Modular foam construction

Two way stretch wipe down cover

Vapour permeable

Full length zip flap

Recyclable removable wipe down covers

Benefits

Provides comfort /low level of pressure distribution for patients

Helps maximise patient contact and pressure

Helps to reduce shear and friction

Increases thermal stability

Reduces possibility of fluid ingress

Value for money
