

## 03 - Savannah Slatted Bathseat

A new addition to the Savannah slatted bathing range. The seat is made from the same smooth, reinforced plastic slats as the Savannah Bathboard and together they make an ideal combination. It provides a strong, comfortable, quick draining seat that is suitable for both bathing and showering. The slats are fully sealed against the ingress of water and fittings are either stainless steel or plastic giving a corrosion resistant seat. Four strong suckers hold the bathseat securely in position.

Seat size : 457 x 290mm (18 x 11 1/4")

Spares are available for this product, making it suitable for refurbishment.
